INDEPENDENT AUDITOR'S REPORT

Mayor and City Council
City of Mount Vernon
P.O. Box 597
Mount Vernon, Texas 75457

Members of the City Council:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Mount Vernon, Texas ("City") as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

1021 Park Street
Commerce, Texas 75428
Office (903) 886-2123
Fax (903) 886-6580

8910 Wesley Street
Greenville, Texas 75402
Office (903) 455-9898
Fax (903) 454-3181

603 South Goliad Street
Rockwall, Texas 75087
Office (972) 771-1065
Fax (972) 771-1022

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Mount Vernon, Texas, as of September 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the TMRS Funding Progress and Contributions and Schedule of Changes in Net Pension Liability on pages 7 to 16, 55 and 56 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section and supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with Government Auditing Standards, we have also issued our report dated December 1, 2015, on our consideration of the City of Mount Vernon, Texas' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Mount Vernon, Texas' internal control over financial reporting and compliance.

Respectfully Submitted,

CONWAY COMPANY CPAs, P.C.

Conway Company CPAs, P.C.

CITY OF MOUNT VERNON, TEXAS

MANAGEMENT DISCUSSION AND ANALYSIS

SEPTEMBER 30, 2015

As management of the City of Mount Vernon ("City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2015. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the City's financial statements, which follow this narrative.

Financial Highlights

- The assets of the City exceeded its liabilities at the close of the fiscal year by \$10,760,476 (net position). Of this amount \$7,661,897, or 71%, is net investment in capital assets. Net position restricted for specific purposes is \$862,933, or 8%. The remaining amount of \$2,235,646 , or 21%, (unrestricted net position) may be used to meet the City's ongoing obligations to its citizens and creditors in accordance with fund designation and fiscal policies.
- The City's total net position increased by \$275,858, or 3%, excluding prior period adjustments. The majority of this increase is attributable to a decrease in total expenditures of (\$138,386), or (4%).
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$1,606,511, an increase of \$332,486, or 26%, excluding prior period adjustment, in comparison with the prior year. Approximately 46% of this total amount, or \$738,168, is available for spending at the City's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$738,168 , or 41%, of total general fund expenditures. The increase in fund balance for the General Fund in the amount of \$256,351 is due to an increase in overall revenues.
- At the end of the current fiscal year, unrestricted fund balance for the Water/Sewer Fund was \$1,558,138 , or 127%, of total Water/Sewer fund expenditures. The decrease in fund balance for the Water/Sewer Fund in the amount of (\$40,170) is due to an increase in transfers to the General Fund.
- The City's total long-term debt decreased by (\$105,000), or (3%), during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Mount Vernon's basic financial statements. The City's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The report also contains other supplementary information in addition to the basic financial statements.

**CITY OF MOUNT VERNON, TEXAS
MANAGEMENT DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2015**

Basic Financial Statements

The first two statements (pages 19-21) in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the City's financial status.

The next statements (pages 23-29) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the City's government. These statements provide more detail than the government-wide statements. There are two parts to the Fund Financial Statements: 1) the governmental funds statements; and 2) the proprietary fund statements.

The next section of the basic financial statements is the **notes** on pages 30-52. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **required supplemental information** is provided to show details about the City's pension plan and budgetary comparison schedule on pages 55-56.

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the City's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the City's financial status as a whole.

The statement of net position presents information on all of the City's assets, deferred outflows, liabilities, and deferred inflows with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). Both the statement of net position and the statement of activities are prepared utilizing the accrual basis of accounting.

The government-wide statements are divided into three categories: 1) governmental activities; 2) business-type activities; and 3) component unit. The governmental activities include most of the City's basic services such as public safety, parks and recreation, and general administration. Property and sales taxes and state and federal grant funds finance most of these activities. The business-type activities are those that the City charges customers to provide. These include the utility services offered by the City. The final category is the component unit.

The government-wide financial statements are on pages 19 - 21 of this report.

Fund Financial Statements

The fund financial statements provide a more detailed look at the City's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like all other governmental entities in Texas, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the City's budget ordinance. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

**CITY OF MOUNT VERNON, TEXAS
MANAGEMENT DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2015**

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the City's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the City's programs. The relationship between government activities (reported in the Statement of Net position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains fifteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Debt Service Fund, and the Permanent Fund. The Governmental Fund financial statements can be found on pages 22-29 of this report.

The City adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the City, the management of the City, and the decisions of the council about which services to provide and how to pay for them. It also authorizes the City to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the City complied with the budget ordinance and whether or not the City succeeded in providing the services as planned when the budget was adopted. The budgetary comparison schedule uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The schedule shows four columns: 1) the original budget; 2) the final budget as amended by the council; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Proprietary Funds – The City has one type of proprietary fund which is the Water and Sewer Fund. The City charges customers for the services it provides, whether to outside customers or to other units within the City. These services are generally reported in proprietary funds. Proprietary Funds are reported in the same way that all activities are reported in the statement of net position and the statement of activities.

Proprietary Funds provide the same type of information as the government-wide financial statements, only in more detail. The basic proprietary fund financial statements can be found on pages 27-29 of this report.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on pages 30 – 52 of this report.

Required Supplementary Information – In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the City's progress in funding its obligation to provide pension benefits to its employees.

**CITY OF MOUNT VERNON, TEXAS
MANAGEMENT DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2015**

New Pronouncements – The following statements for GASB were effective for the City in the fiscal year ending September 30, 2015:

GASB Statement No. 68, "Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27", establishes standards of accounting and financial reporting, but not funding or budgetary standards, for the City's defined benefit pension plan. The significant impact of the City implementing this Statement is the reporting of the City's unfunded pension liability on the City's full accrual basis of accounting government-wide financial statements. There are also new note disclosure requirements and supplementary schedule required. The measurement date for the pension liabilities is as of September 30, 2015. This date reflects a one-year lag and was used so that these financial statements could be issued in an expedient manner. Activity (i.e., contributions made by the City) occurring during fiscal year 2014-15 are reported as deferred outflows of resources in accordance with GASB Statement No. 71.

In order to implement the Statement No. 68, a prior period adjustment was made to adjust unrestricted net position by \$92,055. See Note J for more information regarding the City's pension plan.

GASB Statement No. 69, "Government Combinations and Disposals of Government Operations", establishes accounting and financial reporting standards for government combinations and disposals of government operations. This GASB statement will be implemented as required during the fiscal year September 30, 2015. The implementation of this Statement does not result in any changes to the City's financial statements.

GASB Statement No. 70, "Accounting and Financial Reporting for Nonexchange Financial Guarantees", will be implemented as required by GASB during the fiscal year September 30, 2015. The implementation of this Statement does not result in any changes to the City's financial statements.

GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date", is an amendment to GASB Statement No. 68. This statement addresses the issue regarding application of the transition provisions of Statement No. 68 relating to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. This GASB statement will be implemented as required during the fiscal year September 30, 2015. The implementation of this Statement does not result in any changes to the City's financial statements.

The GASB has issued the following statements which will be effective in future years as described below:

GASB Statement No. 72, "Fair Value Measurement and Application" addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes and, also, provides guidance for applying fair value to certain investments and disclosure related to all fair value measurements. The City is evaluating the potential changes to the financial statements as a result of the implementation of this statement.

Total assets	<u>3,563,905</u>	<u>3,236,496</u>	<u>11,605,699</u>	<u>11,736,488</u>	<u>15,169,604</u>	<u>14,972,984</u>
Deferred outflow of resources						
Deferred outflow-pension	205,136	-	93,497	-	298,633	-
Long-term liabilities	170,291	36,487	4,126,986	4,173,897	4,297,277	4,210,384
Current liabilities	72,571	47,784	161,602	138,143	234,173	185,927
Total liabilities	<u>242,862</u>	<u>84,271</u>	<u>4,288,588</u>	<u>4,312,040</u>	<u>4,531,450</u>	<u>4,396,311</u>
Deferred inflow of resources						
Deferred inflow-pension	121,214	-	55,097	-	176,311	-
Net position:						
Net investment in capital assets	1,864,524	1,894,388	5,797,373	5,812,202	7,661,897	7,706,590
Restricted	862,933	790,909	-	-	862,933	790,909
Unrestricted	677,508	466,928	1,558,138	1,612,246	2,235,646	2,079,174
Total net position	<u>\$ 3,404,965</u>	<u>\$ 3,152,225</u>	<u>\$ 7,355,511</u>	<u>\$ 7,424,448</u>	<u>\$ 10,760,476</u>	<u>\$ 10,576,673</u>

As noted earlier, net position may serve over time as one useful indicator of a City's financial condition. The net position of the City exceeded liabilities by \$10,760,476 as of September 30, 2015. The City's net position increased by \$275,858, or 3%, excluding prior period adjustments, for the fiscal year ended September 30, 2015.

Net investment in capital assets:

The largest portion of the City's net position, \$7,661,897, or 71%, reflects the investment in capital assets (e.g., land, buildings, machinery, and equipment) less any related debt still outstanding that was issued to acquire those items. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of outstanding related debt, the resources needed to repay that debt must be provided by other sources since the capital assets cannot be used to liquidate these liabilities.

Restricted net position:

The restricted net position of \$862,933, or 8%, of total net position represents resources that are subject to external restrictions on their use, or by enabling legislation. Restricted net position is comprised of state and contractually imposed restrictions which are \$526,336, or 61%, debt obligations, nonspendable endowment funds of \$281,626, or 33%, \$12,977, or 1%, restricted for court use, \$41,308 or 5% for hotel use and \$686 for HOME program.

Unrestricted net position:

Unrestricted net position of \$2,235,646, or 21%, is available to fund City programs to citizens and debt obligations to creditors. The majority of unrestricted net position resides in the Business-type activities.

Governmental activities increased net position, excluding prior period adjustments, by \$316,028. This is due in part to a decrease in overall expenditures of (\$104,186) or (6%) and an increase in transfers of \$45,951.

Business-type activities decreased net position, excluding prior period adjustments, by (\$40,170). This is due to a increase in transfers to the Governmental funds.

**CITY OF MOUNT VERNON, TEXAS
MANAGEMENT DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2015**

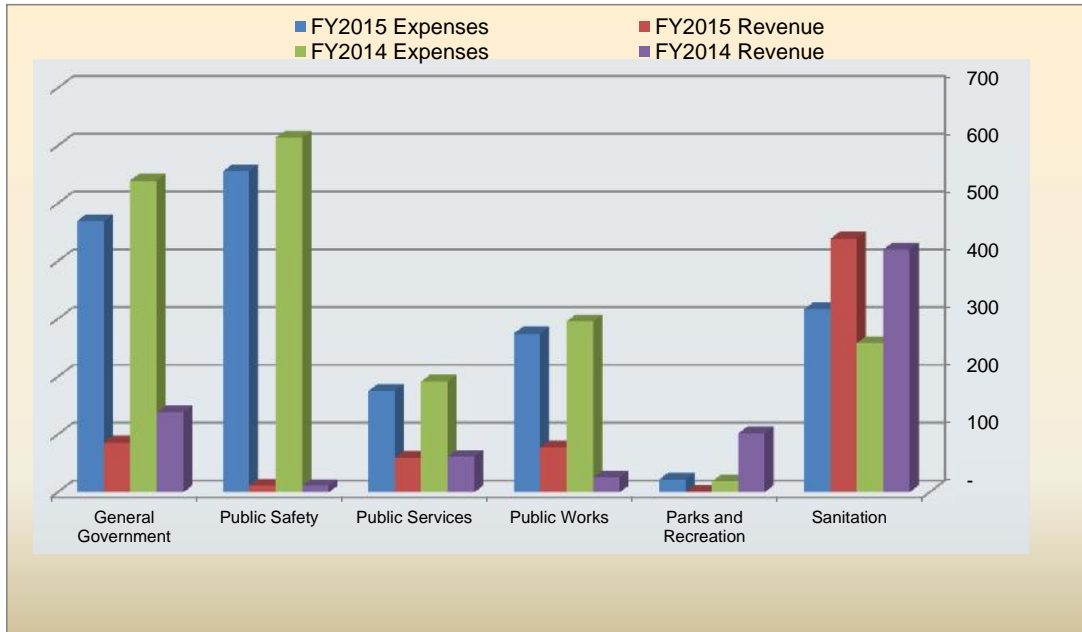

Governmental-type activities - Governmental-type activities increased the City's net position by \$316,028, excluding prior period adjustments. Key elements of this increase are as follows:

Tax revenues collected increased \$40,394, or 2.96%.

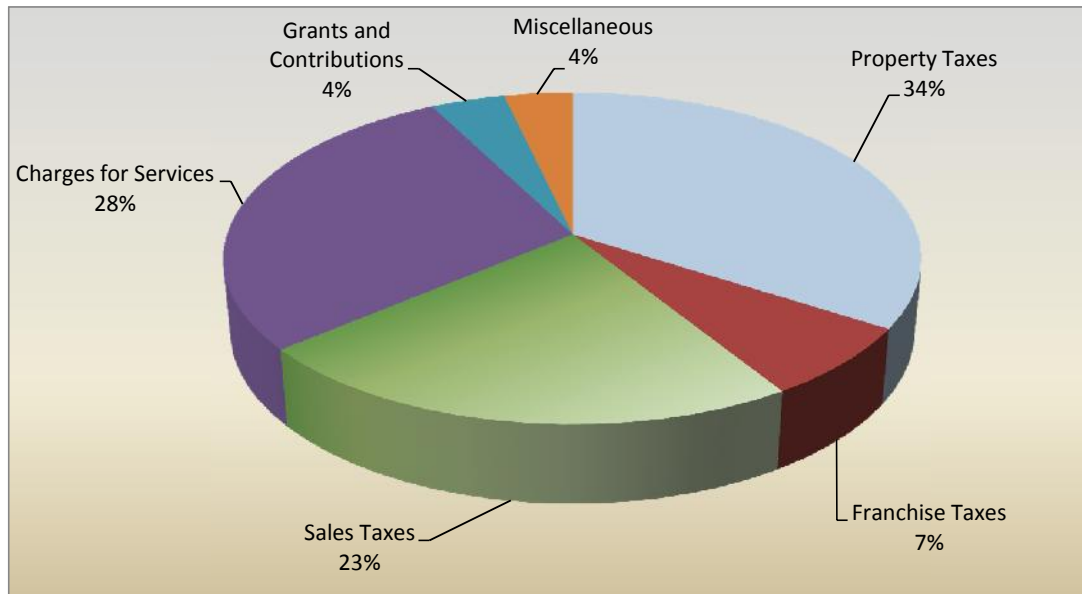

Overall expenditures decreased (\$104,186), or (5.7%).

Expenses and Program Revenues - Governmental Activities

(amounts expressed in thousands)

Revenues by Source - Governmental Activities

**CITY OF MOUNT VERNON, TEXAS
 MANAGEMENT DISCUSSION AND ANALYSIS (continued)
 SEPTEMBER 30, 2015**

Business-type Activities - Business-type activities decreased the City's net position by (\$40,170), excluding prior period adjustments. Key elements of this decrease are as follows:

Transfers to General Fund increased by \$45,951.

Expenditures and Program Revenues - Business-type Activities
 (amounts expressed in thousands)

Revenues by Source - Business-type Activities

**CITY OF MOUNT VERNON, TEXAS
MANAGEMENT AND DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2015**

Financial Analysis of the City's Funds

As noted earlier, the City of Mount Vernon uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the City's financing requirements. Specifically, unassigned fund balance can be a useful measure of a government's net resources available for spending as they represent the portion of fund balance which has not been limited to use for a particular purpose by either an external party, the City itself, or a group or individual that has been granted authority to assign resources for a particular purpose for the City.

At September 30, 2015, the governmental funds of the City reported a combined fund balance of \$1,606,511, a 26% increase when compared to the prior year. The components of total fund balance are as follows:

- Nonspendable fund balance of \$281,626, or 17.5%, of total fund balance is a permanent endowment for the City cemetery.
- Restricted fund balance of \$571,096, or 35.5%, of total fund balance consists of the following:
 - requirements for debt obligations of \$516,125, or 90.4%;
 - restrictions for court use of \$12,977, or 2.3%;
 - restrictions for hotel tax use of \$41,308, or 7.2%;
 - restrictions for HOME program of \$686, or .1%.
- Assigned fund balance of \$15,621, or .97%, of total fund balance for park improvements.
- Assigned fund balance of \$738,168, or 45.95%, of total fund balance represents residual fund balance that has not been restricted, committed, or assigned.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund was \$738,168, compared to \$472,656 at the end of the prior year. As a measure of the General Fund's liquidity, it may be useful to compare the unassigned fund balance to total fund expenditures. Unassigned fund balance represents 41% of total expenditures.

It is the City's goal to achieve and maintain an unassigned fund balance in the General Fund equal to 16.67% of expenditures. At the end of the current fiscal year, the City is in excess of this threshold by 146%.

General Fund Budgetary Highlights: During the fiscal year, the City did not revise the budget. Generally, budget amendments fall into one of three categories: (1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and (3) increases in appropriations that become necessary to maintain services.

Revenues were significantly more than the budgeted amounts and expenditures were less than budget.

Proprietary Funds - The City's proprietary funds provide the same type of information found in the government-wide statements but in more detail. Unrestricted net position of the proprietary funds at the end of the fiscal year amounted to \$1,558,138.

It is the City's goal to achieve and maintain an unrestricted fund balance in the Water/Sewer Fund equal to 16.67% of expenditures. At the end of the current fiscal year, the City is in excess of this threshold by 662%.

**CITY OF MOUNT VERNON, TEXAS
MANAGEMENT DISCUSSION AND ANALYSIS (continued)
SEPTEMBER 30, 2015**

Capital assets - The City's investment in capital assets for its governmental and business-type activities as of September 30, 2015, totals \$8,800,304 (net of accumulated depreciation). This investment in capital assets includes buildings, roads and bridges, land, machinery and equipment. The total increase in the City's investment in capital assets for the current fiscal year was 5.5%.

Major capital asset events during the current fiscal year included the following:

- Improvements to sewer infrastructure
- Beginning of sidewalk improvements project

**Capital Assets

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Mount Vernon ("City") operates under a Council-Manager form of government with a City Council comprised of the Mayor & five Council members. Some of the services provided are: public safety (police and fire protection), water distribution, and general administration.

The accounting and reporting policies of the City relating to the funds included in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America ("GAAP") applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board ("GASB"), the American Institute of Certified Public Accountants in the publication entitled *State and Local Governments-Audit and Accounting Guide* and by the Financial Accounting Standards Board when applicable. The more significant accounting policies of the City are described below:

1. Reporting Entity

The City is a municipal corporation governed by an elected mayor and five-member council and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the City is a financial reporting entity as defined by GASB in its Statement No. 14, "The Financial Reporting Entity", as amended by GASB Statement No. 39 "Determining Whether Certain Organizations are Component Units".

Under GASB Statement No. 14, component units are organizations for which the City is financially accountable and all other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Financial accountability exists if the City appoints a voting majority of an organization's governing board and is either able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the City. The City may be financially accountable for governmental organizations with a separately elected governing board, a governing board appointed by another government, or a jointly appointed board that is fiscally dependent on the City. The financial statements of the component unit may be discretely presented in a separate column from the primary government or blended with the financial statements of the primary government. GASB Statement No. 39 added clarification to GASB Statement No. 14 by including entities which meet all three of the following requirements:

1. The economic resources received or held by the separate organization are entirely for the direct benefit of the primary government, its component units, or its constituents.
2. The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
3. The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to other access, are significant to the primary government.

The financial statements of the following component unit has been "discretely presented" in the accompanying report because (i) their governing boards are not substantially the same as the governing body of the City, or (ii) the component unit provides services entirely or almost entirely to the citizenry and not the City.

Discretely presented component units. The City has one component unit, City of Mount Vernon Economic Development Corporation ("EDC"). The EDC was incorporated in 2010. The EDC is governed by a seven-member board appointed by and serving at the pleasure of the City Council. Thus, the EDC is legally separate, but due to the City appointing the voting majority of the EDC board, it is classified as a discretely presented component unit. The funding for EDC occurs by the City transferring 1/4 of sales tax collected by the City to the EDC. Adding the creation of the EDC to the resources currently available will more than double the current ability to assist economic development prospects. All of the EDC funding can be used for direct assistance to prospects and continued development of infrastructure. The nature and significance of the relationship between the primary government and the organization is such that exclusion would cause the City's financial statement to be misleading or incomplete.

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Reporting Entity (continued)

In addition, GASB Statement No. 61 considers an organization that does not meet the financial accountability criteria may be included as a component unit if management's professional judgment determines it to be necessary and misleading if omitted. This evaluation includes consideration of whether a financial benefit or burden exists in the relationship between the entities. Management has not identified any additional organizations that fit this criteria.

2. Basis of Presentation, Basis of Accounting

The basic financial statements are prepared in conformity GAAP which requires the government-wide financial statements to be prepared using the accrual basis of accounting and the economic resources measurement focus. Government-wide financial statements do not provide information by fund, but distinguish between the City's governmental activities and business-type activities on the statement of net position and statement of activities. Significantly, the City's statement of net position include both noncurrent assets and noncurrent liabilities. In addition, the government-wide statement of activities reflects depreciation expenses on the City's capital assets, including infrastructure.

In addition to the government-wide financial statements, the City has prepared fund financial statements, which use the modified accrual basis of accounting and the current financial resource measurement focus for the governmental funds. The accrual basis of accounting is utilized by proprietary funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Management's Discussion and Analysis provides an analytical overview of the City's financial activities. In addition, a budgetary comparison schedule is presented that compares the original adopted budget and final amended General Fund budget with actual results.

The City's basic financial statements include the accounts of all City operations. In evaluating how to define the government for financial reporting purposes, management has considered all entities for which the City is considered to be financially accountable. As required by GAAP, these financial statements present the City and its component unit, entities for which the City is considered to be financially accountable. The discretely presented component unit has been reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component unit. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely on fees and charges for support.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a functional category (Public Safety, Public Works, Parks, etc.) or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or program. Program revenues include: a) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or program, b) grants and contributions that are restricted to meeting the operational requirements of a particular function or program, or c) grants and contributions that are restricted to meeting the capital requirements of a particular function or program. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated resources are also reported as general revenues rather than as program revenues.

The net cost (by function) is normally covered by general revenue (property and sales taxes, franchise taxes, and interest income).

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2 Basis of Presentation, Basis of Accounting (continued)

Separate fund financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the funds financial statements. The major governmental funds are the general fund, debt service fund, special revenue fund, and permanent fund . The major proprietary fund is the water and sewer fund. GASB Statement No. 34 set forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category for the governmental and proprietary combined) for the determination of major funds. The non-major funds are combined in a column in the fund financial statements. The nonmajor funds are detailed in the combining section of the statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to the general rule are franchise fees and other charges between the government's water and wastewater function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and wastewater business-type fund are charges to customers for sales and services. The water and wastewater fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for business-type include the cost of sales and service, administrative expenses, and depreciation on assets. All revenues and expenses not meeting the definition are reported as non-operating revenues and expenses.

The government-wide focus is more on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The focus of the fund financial statements is on major individual funds of the governmental and proprietary categories. Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

3. Measurement Focus, Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized when earned, including unbilled water and sewer services which are accrued. Expenses are recognized at the time the liability is incurred.

Governmental fund level financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available when they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due and payable shortly after year end as required by GASB Interpretation No. 6.

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3. Measurement Focus, Basis of Accounting (continued)

Ad valorem, franchise and sales tax revenues recorded in the General Fund and ad valorem tax revenues recorded in the Debt Service Fund are recognized under the susceptible to accrual concept. Licenses and permits, charges for services, fines and forfeitures, contributions, and miscellaneous revenues are recorded as revenues when received in cash, as the resulting receivable is not measurable. Investment earnings are recorded as earned since they are measurable and available. In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. Intergovernmental grant revenues are recognized when all eligibility requirements have been met.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Governmental funds are those through which most governmental functions of the City are financed. The acquisition, use, and balances of the City's expendable financial resources and the related liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following is a description of the major governmental funds of the City:

The **General Fund** is the operating fund of the City. This fund is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed changes and capital improvements costs that are not paid through other funds are paid from the General Fund.

The **Debt Service Fund** is used to account for the accumulation of financial resources for the payment of principal, interest and related costs on general long-term debt paid from taxes levied by the City.

The **Permanent Fund** is used to account for a memorial cash bequest to be used for maintenance of the City cemetery. Interest income earned each year is the only portion of this endowment that can be spent. The City issues a check to the cemetery board annually for the interest earned in the previous twelve months.

Proprietary funds are accounted for on a flow of economic resources measurement focus. The accounting objectives are a determination of net income, financial position, and changes in cash flows. All assets and liabilities associated with a proprietary fund's activities are included on its statement of net position.

Proprietary funds are financed and operated in a manner similar to a private business enterprise. The costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis are financed or recovered primarily through user charges. Periodic determination of revenue earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability or purposes. The following is a description of the proprietary funds of the City:

The **Water and Sewer Fund** account for the operations of the water and sanitary sewer utilities which are self-supporting activities rendering services on a user-charge basis.

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4. Financial Statement Amounts

a. Cash and Cash Equivalents

The City's cash and cash equivalents include cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The City pools cash from all fund types (excluding certain restricted assets that are considered cash and cash equivalents) to increase the amount of funds available for investment. Investments held by the City that have a remaining maturity of greater than one year from purchase are carried at fair value. Interest earnings are allocated to the respective funds based upon each fund's relative balance in the pool. Each fund may liquidate its equity in the pool on demand.

b. Receivable and Payable Balances

The City believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation.

Trade and property tax receivables are shown net of an allowance for uncollectible.

All legally authorized transfers are appropriately treated as transfers and are included in the results of operations of both governmental and proprietary funds. Nonrecurring and non-routine transfers of equity between funds - for example, contribution of capital assets to a proprietary fund or transfers of residual balances of discontinued funds to other funds - are accounted for as transfers.

c. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. Restricted assets in the governmental funds represent cash and cash equivalents and investments set aside for specific capital additions, and various bond covenants. Restricted assets in the proprietary funds represent cash and cash equivalents and investments set aside for repayment of deposits to utility customers, specific capital additions, and various bond covenants.

Customer deposits received for the water and wastewater service are, by law, to be considered restricted assets. These activities are included in the Water and Sewer Funds.

d. Capital Assets

Capital assets, which include land, buildings, equipment, and improvements, purchased or acquired, are in the applicable governmental or business-like activities columns in the government-wide financial statements and proprietary fund types. The City defines capital assets as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical if historical cost is not available. Contributed assets are recorded at fair market value as of the date donated. Additions, improvements, and capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Net interest incurred during the construction phase of capital assets of business-like activities is included as part of the capitalized value of the assets constructed. There was no capitalized interest during the current fiscal year.

Management elected not to retroactively report infrastructure assets within the scope of GASB Statement No. 34.

**CITY OF MOUNT VERNON, TEXAS
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED SEPTEMBER 30, 2015**

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- 4. Financial Statement Amounts
 - d. Capital Assets (continued)

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Infrastructure	15 - 40
Building & Improvements	10 - 50
Machinery and equipment	5 - 10

- e. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation, overtime not paid (comp time), personal days, and sick pay benefits. All vacation and comp time is accrued at the close of the fiscal year in the government-wide and proprietary fund financial statements. An employee's sick pay accrual does not begin until they have been employed with the City for ten years and a maximum of 480 hours is accrued.

- f. Pensions

In government-wide financial statements, retirement plans (pension) are required to be recognized and disclosed using the accrual basis of accounting regardless of the amount recognized as pension expenditures on the governmental fund statements, which use the modified accrual basis of accounting.

In general, the City recognizes a net pension liability, which represents the City's proportionate share of the excess of the total pension liability over the fiduciary net position of the pension reflected in the actuarial report provided by the Texas Municipal Retirement System ("TMRS"). The net pension liability is measured as of December 31, 2014. Changes in the net pension liability are recorded as pension expense or as deferred inflows of resources or deferred outflows of resources depending on the nature of the change. The changes in net pension liability that are recorded as deferred inflows of resources or deferred outflows of resources (that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience) will be amortized over the weighted average remaining service life of all participants and are recorded as a component of pension expense beginning with the period in which they are incurred.

For purposes of measuring the net pension liability and deferred inflows/outflows of resources relating to pension expense, information about the fiduciary net position of the City's pension plan with TMRS and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by TMRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

Projected earnings on pension investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and will be amortized as a component of pension expense on a closed basis over a five-year period beginning with the period in which the difference occurred. Each subsequent year will incorporate an additional closed five-year period of recognition.

- g. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method and netted with the long term obligations in the liabilities. The City has compared this method to the effective interest method and found the difference between the two methods to be immaterial. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed during the year they are incurred in accordance with GASB Statement No. 65.

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4. Financial Statement Amounts

g. Long-term Obligations (continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financial sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

h. Deferred Outflows/Inflows of Resources

In addition to assets, the fund balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditures) until then. The City has one item that is reportable in the government-wide Statement of Net Position: outflows from changes in net pension liability. This outflow if resources is, also, reported in the proprietary fund financial statements.

In addition to liabilities, the fund balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of a net position that applies to that time. The City has only one type of deferred inflow of resources in the governmental fund financial statement. Deferred revenue from property taxes is deferred and recognized as an inflow of resources in the period that the amounts become available. There is one type of deferred inflow of resources in the government-wide Statement of Net Position; inflows of changes in net pension liability. This inflow of resources is, also, reported in the proprietary fund financial statements.

i. Fund Balance Policies

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the City is bound to honor constraints on how specific amounts can be spent:

- *Nonspendable fund balance* - includes the portion of net resources that cannot be spent because of their form (i.e. inventory, long-term loans, or prepaids) or because they must remain intact such as the principal of an endowment.
- *Restricted fund balance* - includes the portion of net resources on which limitations are imposed by creditors, grantors, contributors, or by laws or regulations of other governments (i.e. externally imposed limitations). Amounts can be spent only for the specific purposes stipulated by external resource providers or as allowed by law through constitutional provisions or enabling legislation. Examples include grant awards and bond proceeds.
- *Committed fund balance* - includes the portion of net resources for which the City Council has imposed limitations of use. Amounts that can be used only for the specific purposes determined by a resolution of the City Council. Commitments may be changed or lifted only by a resolution of the City Council. The resolution must be approved before the end of the fiscal year in which the commitment will be reflected on the financial statements.
- *Assigned fund balance* - includes the portion of net resources for which an *intended* use has been established by the City Council or the City Manager authorized to do so by the City Council. Assignments of fund balances are much less formal than commitments and do not require formal action for their imposition or removal. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed which indicates that resources are, at a minimum, intended to be used for the purpose of that fund.
- *Unassigned fund balance* - includes the amounts in the general fund in excess of what can properly be classified in one of the other four categories of fund balance. It is the residual classification of the general fund and includes all amounts not contained in other classifications. Unassigned amounts are technically available for any purpose. Negative residual amounts for all other governmental funds are reported in this classification.

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4. Financial Statement Amounts (continued)

j. Net Position Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

k. Fund Balance Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements is a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

l. Comparative Data/Reclassification

Comparative total data for the current year to budget have been presented in the supplementary section of the financial statements in order to provide an understanding of budget to actual. Also, certain amounts presented in the prior year data may have been reclassified in order to be consistent with the current year's presentation.

m. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consideration. Services provided, deemed to be a market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges in appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position. The government did not have any Internal Balances at fiscal year end.

n. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates.

o. Program Revenues

Certain revenues such as charges for services are included in program revenues.

p. Program Expenditures

Certain indirect costs such as administrative costs are included in the program expenditures reported for individual functional activities.

**CITY OF MOUNT VERNON, TEXAS
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED SEPTEMBER 30, 2015**

B. COMPLIANCE AND ACCOUNTABILITY

1. Finance-Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations.

<u>Violation</u>	<u>Action Taken</u>
None reported	n/a

2. Deficit Fund Balance or Fund Net Position of Individual Funds

Following are funds having deficit fund balances or fund net position at year end, if any, along with remarks which address such deficits:

<u>Fund Name</u>	<u>Deficit Amount</u>
None reported	n/a

3. Budgets and Budgetary Accounting

The City adopts an "appropriated budget" of the General Fund on the modified accrual basis of accounting by department. The City is required to present the adopted and final amended budgeted revenues and expenditures. The City compares the budget to actual revenues and expenditures as a management control during the year.

The following procedures are followed in establishing the budgetary data:

- No later than the first City Council meeting each August, the City Manager submits to the City Council a proposed budget for the fiscal year commencing October 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain taxpayer comments.
- Prior to September 30, the budget is legally enacted through passage of an ordinance. If the Council takes no action on or prior to such day, the budget, as submitted by the City Manager, shall be deemed to have been adopted by the City Council.
- According to the Local Government Code for General Law A cities, total estimated expenditures of the General Fund is to be budgeted.
- The level of control (the level at which expenditures may not exceed budget) is the fund level. The City Manager is authorized to approve a transfer of budgeted amounts within departments; however, any revisions that alter the total of any fund must be approved by the City Council.

**CITY OF MOUNT VERNON, TEXAS
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED SEPTEMBER 30, 2015**

C. CASH AND INVESTMENTS

The City's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the City's agent bank approved pledged securities in an amount sufficient to protect the City funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository banks dollar amount of Federal Deposit Insurance Corporation ("FDIC") Insurance.

Cash Deposits

At September 30, 2015, the carrying amount of the City's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$6,074,513, and the bank balance was \$5,637,692. The City's cash deposits at September 30, 2015 and during the year ended September 30, 2015 were entirely covered by FDIC insurance or by pledged collateral held by the City's agent bank in the City's name. The amount of deposits covered by collateralized securities was \$8,287,187. Cash and investments as of September 30, 2015 consist of and are classified in the accompanying financial statements as follows:

Statement of net position:

Primary Government	
Cash and cash equivalents	\$ 2,158,027
Restricted assets-cash & cash equivalents	3,916,486
Total cash and cash equivalents	<u>\$ 6,074,513</u>
 Governmental - Restricted cash	
Municipal Court - technology, building security	\$ 13,483
Debt Service	513,616
Hotel	41,308
Endowment funds	281,626
Grant funds	31,532
HOME program	686
	<u>\$ 882,251</u>
 Business-type - Restricted cash	
Customer Deposits	\$ 112,642
Capital Projects	2,921,593
	<u>3,034,235</u>
Total Restricted Cash	<u>\$ 3,916,486</u>

Investments:

The Public Funds Investment Act ("Act") (Government Code Chapter 2256) requires the City to have an independent auditor perform test procedures related to investment practices as provided by the Act. The City is in substantial compliance with the requirements of the Act and with local policies.

Investment Accounting Policy

The investment program's foremost objective is the safety of principal by seeking to ensure the preservation of capital in the portfolio and to mitigate credit risk and interest rate risk.

The City has options for investments of City funds: certificates of deposits that are issued by a bank organized under Texas law, the laws of another state, or federal law, that has its main office or a branch office in Texas, or by a savings and loan association or a savings bank organized under Texas law, the laws of another state, or federal law, that has a main office in Texas and that is guaranteed or insured by the Federal Deposit Insurance Corporation or its successor or secured by obligations in a manner and amount provided by law for deposits of the City.

Local government investment pools, which meet the requirement of Chapter 2256.016 of the Public Funds Investment Act, are rated no lower than AAA or an equivalent rating by at least one nationally recognized rating service, and seek to maintain a \$1.00 net asset value and are authorized by resolution of the City Council.

**CITY OF MOUNT VERNON, TEXAS
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED SEPTEMBER 30, 2015**

C. CASH AND INVESTMENTS (continued)

Investment in State Investment Pools

The City is a voluntary participant in LoneStar Investment Pool ("Lone Star"). Lone Star is a subsidiary of First Public, LLC. Lone Star limits investments only to those allowed by the Public Funds Investment Act. This type of investment pool uses amortized costs rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in these pools is the same as the value of the shares in each pool. The Texas Local Government Investment Pool is organized in conformity with the Interposol Cooperation Act, Chapter 791 of the Texas Government code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The Pool is governed by an Advisory Board composed equally of participants in the Pool and other persons who do not have a business relationship with the Pool who are qualified to advise the Pool.

Disclosure relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk is by investing mainly in investment pools which purchase a combination of shorter term investments with an average maturity of less than 60 days thus reducing the interest rate risk. Currently, the City does not have any investments inherent to interest rate risk.

As of September 30, 2015, the City had the following investments:

<u>Investment Type</u>	<u>Amount</u>	<u>Weighted Average Maturity</u>
Lone Star Investment Pool	<u>\$ 412,308</u>	33

Custodial Credit Risk

To control custody and safekeeping risk, State law and the City's adopted investment policy require collateral for all time and demand deposits, as well as collateral for repurchase agreements, be transferred delivery versus payment and held by an independent party approved by the City and held in the City's name. The custodian is required to provide original safekeeping of receipts and monthly reporting of positions with position descriptions including market value. Repurchase agreements and deposits must be collateralized to 100% and be executed under written agreements. Depository agreements are executed under agreements.

The City strives to minimize credit risk, the risk of loss due to the failure of the issuer or backer of the investment by limiting investment to the safest types of investments, pre-qualifying the financial institutions in which the City will do business, and diversifying the investment portfolio so that potential losses on individual issuers will be minimized.

D. PROPERTY TAXES

Property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and personal property located in the City. Assessed value represents the appraisal value less applicable exemptions authorized by the City Council. The Appraisal Board of Review establishes appraised values at 100% for estimated market value. A tax lien attaches to the property on January 1 of each year to secure the payment of all taxes, penalties, and interest ultimately imposed for the year on that property, whether or not the taxes are imposed in the year the lien attaches.

Revenues are recognized as the related ad valorem taxes are collected. Additional delinquent property taxes estimated to be collectible within sixty days following the close of the fiscal year have been recognized as revenue at the fund level.

In Texas, county-wide central appraisal districts are required under the Property Tax Code to assess all property within the appraisal district on the basis of 100% of its market value and are prohibited from applying any assessment ratios.

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

D. PROPERTY TAXES (continued)

The value of property within the appraisal district must be reviewed every five years; however, the City may, at its own expense, require annual reviews of appraised values. The City may challenge appraised values established by the appraisal district through various appeals, and, if necessary, take legal action. Under this legislation, the City continues to set tax rates on City property. However, if the effective tax rate, including tax rates for bonds and other contractual obligations, adjusted for new improvements, exceeds the rate for the previous year by more than 8%, qualified voters of the City may petition for an election to determine whether to limit the tax rate to no more than 8% above the tax rate of the previous year.

The statutes of the State of Texas do not prescribe a legal debt limit. However, Article XI, Section 5 of the Texas Constitution applicable to cities of less than 5,000 population limits the ad valorem tax rate to \$1.50 per \$100 assessed valuation. The City's 2015 ad valorem tax rate of \$0.604382 is in compliance with the rate limitation.

E. RECEIVABLES

Receivables as of year-end for the City's individual major funds, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Proprietary</u>	<u>Debt Service</u>	<u>Total</u>
Receivables				
Taxes	\$ 113,873	\$ -	\$ 12,720	\$ 126,593

2019	115,000	99,892	214,892
2020	115,000	97,013	212,013
2021-2025	625,000	438,853	1,063,853
2026-2030	705,000	352,355	1,057,355
2031-2035	810,000	252,237	1,062,237
2036-2040	925,000	136,673	1,061,673
2041-2043	440,000	19,125	459,125
Totals	<u>\$ 4,060,000</u>	<u>\$ 1,711,805</u>	<u>\$ 5,771,805</u>

\$3,820,000 Combination Tax and Surplus Revenue Certification of Obligation, Series 2012 were issued for the purpose of renovation and improvements costs to a lift station, sewer lines, and related sewer system improvements and the professional services in connection. Debt obligations are to be paid from the collection of ad valorem taxes and net revenues of the water/sewer system

\$525,000 Combination Tax and Surplus Revenue Certification of Obligation, Series 2013 were issued for the purpose of wastewater infrastructure improvements. This debt has incremental interest rates of 0.00% - 2.82% over the life of the bond of 30 years. Debt obligations are to be paid from the collection of ad valorem taxes and net revenues of the water/sewer system.

H. COMPENSATED ABSENCES

Compensated absences represent the estimated liability for employees' accrued compensatory time and vacation leave which employees are entitled to be paid upon termination of employment if all requirements are met as stated in the personnel manual adopted by City Council. The retirement of this liability is typically paid from the General Fund and the Proprietary Funds based on the assignment of an employee at termination.

I. CONSTRUCTION COMMITMENTS

The City has two projects as of September 30, 2015. The following are the commitments for these projects:

Project	Spent-to-Date	Remaining Commitment
Sidewalk improvements	\$ 20,666	\$ 226,534
Sewer infrastructure improvements	846,116	2,967,367
TOTAL	<u>\$ 866,782</u>	<u>\$ 3,193,901</u>

**CITY OF MOUNT VERNON, TEXAS
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED SEPTEMBER 30, 2015**

J. PENSION PLAN

1. Plan Description

The City provides pension benefits for all its eligible employees through a non-traditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System ("TMRS"). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code ("TMRS Act") as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS' defined benefit pension plan is a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report ("CAFR") that can be obtained at www.tmrs.com.

All eligible employees of the City are required to participate in TMRS.

2. Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the City Council, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payment options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

Plan provisions for the City were as follows:

	Plan Year	
	2014	2013
Employee Deposit Rate	7.00%	7.00%
Matching Ratio (City to Employee)	2 to 1	2 to 1
Years required for vesting	5 years	5 years
Service retirements eligibility (expressed as age/years of service)	60/5, 0/25	60/5, 0/25
Updated Service Credit	2.28%	2.90%
Annuity Increase (to retirees)	0.00%	0.00%

Employees covered by benefit terms:

At December 31, 2014 valuation and measurement date, the following employees were covered by the benefit terms:

	Plan Year	
	2014	2013
Inactive employees or beneficiaries current receiving benefits	16	18
Inactive employees entitled to but not yet receiving benefits	11	12
Active employees	22	21
	<u>49</u>	<u>51</u>

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

J. PENSION PLAN (continued)

3. Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the City matching percentages are either 100%, 150%, or 200%, both as adopted by the City Council. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal ("EAN") actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City were 10.53% and 11.03% in calendar years 2014 and 2015, respectively. The City's contributions to TMRS for the fiscal year ended September 30, 2015 were \$84,731 and were equal to the required contributions.

4. Net Pension Liability

The City's Net Pension Liability ("NPL") was measured as of December 31, 2014, and the Total Pension Liability ("TPL") used to calculate the NPL was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The TPL in the December 31, 2014 actuarial valuation was determined using the following actuarial assumptions:

Inflation	3.0%
Overall payroll growth	3.50% to 12.00% including inflation
Investment Rate of Return	7.0%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-district RP2000 Combined Healthy Mortality Table, with male rates multiplied by 109% and female rates multiplied by 103%. Based on the size of the City, rates are multiplied by a factor of 96%. The rates are projected on a fully generational basis of scale BB to account for future mortality improvement. For disabled annuitants, the gender-distinct RP2000 Disabled Retiree Mortality Table is used, with slight adjustments.

Actuarial assumptions used in the December 31, 2014 valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period of January 1, 2006 through December 31, 2009, first used in the December 31, 2010 valuation. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the EAN actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2014 valuation.

The long-term expected rate of return on pension plan investments is 7%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income. In order to satisfy the short-term and long-term funding needs of TMRS.

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

J. PENSION PLAN

4. Net Pension Liability (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return (Arithmetic)</u>
Domestic Equity	17.5%	4.80%
International Equity	17.5%	6.10%
Core Fixed Income	30.0%	1.50%
Non-Core Fixed Income	10.0%	3.50%
Real Return	5.0%	1.75%
Real Estate	10.0%	5.25%
Absolute Return	5.0%	4.25%
Private Equity	5.0%	8.50%
	<u>100.0%</u>	

Discount Rate

The discount rate used to measure the TPL was 7.0%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

Sensitivity of the net position liability to changes in the discount rate

The following presents the net pension liability of the City, calculated using the discount rate of 7.0%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0%) or 1-percentage-point higher (8.0%) than the current rate:

	Current Single Rate	
1% Decrease 6.00%	Assumption 7.00%	1% Increase 8.00%
<u>\$ 652,777</u>	<u>\$ 194,449</u>	<u>\$ (175,654)</u>

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

J. PENSION PLAN (continued)

5. Pension Expense and deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2015, the City recognized pension expense of \$55,727.

At September 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Differences between expected and actual economic experience	\$ -	\$ 102,491
Changes in actuarial assumptions	-	-
Difference between projected and actual investment earnings	33,709	-
Contributions subsequent to the measurement date of December 31, 2014	-	-
	<u>\$ 33,709</u>	<u>\$ 102,491</u>

\$60,816 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the fiscal year ending September 30, 2015. Other amounts reported as deferred outflows and inflows of resources related to pension will be recognized in pension expense as follows:

Net deferred outflows (inflows) of resources:	
December 31,	
2015	\$ (21,247)
2016	(21,247)
2017	(11,782)
2018	6,741
2019	-
Thereafter	-
Total	<u>\$ (47,535)</u>

6. Group-term Life Insurance

The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the TMRS known as the Supplemental Death Benefits Fund ("SDBF"). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit", or OPEB.

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

The City's contributions to the TMRS SDBF for the years ended 2015, 2014 and 2013 were \$1,949, \$1,966 and \$1,965, respectively, which equaled the required contributions each year.

**CITY OF MOUNT VERNON, TEXAS
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED SEPTEMBER 30, 2015**

K. HEALTH CARE COVERAGE

During the year ended September 30, 2015, employees of the City were covered by a health insurance plan with the Texas Municipal League (TML). The contract between the City and TML is renewable October 1 of each fiscal year and the terms of coverage and premium costs are included in the contractual provision. For the current fiscal year, the City paid premium costs of \$493 for each eligible employees.

L. INSURANCE COVERAGE

In accordance with state statute, the City was protected against unanticipated catastrophic individual or aggregate loss by stop-loss coverage carried through Texas Municipal League, a commercial insurer licensed or eligible to do business in Texas in accordance with the Texas Insurance Code. Stop-loss coverage was in effect for individual claims up to \$125,000 and for aggregate loss. According to the latest actuarial opinion dated October 1, 2014, the unfunded claim benefit obligation included no reported claims that were unpaid and no estimated claims incurred, but not reported.

M. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. The City had general liability coverage at a cost that is considered to be economically justifiable by joining together with other governmental entities in the State as a member of the Texas Municipal League Intergovernmental Risk Pool ("TML"). TML is a self-funded pool operating as a common risk management and insurance program. The City pays an annual premium to TML for its above insurance coverage. The agreement for the formation of TML provides that TML will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of acceptable risk levels; however, each category of coverage has its own level of reimbursement. The City continues to carry commercial insurance for other risks of loss. There were no significant reductions in commercial insurance coverage in the past fiscal year and settled claims resulting from these risks have not exceeded coverage in any of the past three fiscal years.

N. LITIGATION

Currently, management is unaware of significant pending litigation against the City.

O. ADDITIONAL WATER AND SEWER INFORMATION

The following information is included at the request of the Texas Water Development Board for the year under audit. Water Accountability Report:

Gallons Pumped	156,812,000
Gallons Billed	97,421,000

P. TRANSFERS

	General Fund	Water and Sewer Funds
<u>Transfers Out</u>		
General Fund	\$ 53,600	\$ -
Water and Sewer	-	(53,600)
	<u>\$ 53,600</u>	<u>\$ (53,600)</u>

**CITY OF MOUNT VERNON, TEXAS
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED SEPTEMBER 30, 2015**

Q. PRIOR PERIOD ADJUSTMENT

Prior period adjustments were made for the following:

Governmental activities:

To record beginning balance of net pension liability \$ (63,288)

Business-type activities:

To record beginning balance of net pension liability \$ (28,767)

R. SUBSEQUENT EVENTS

The City has evaluated all events or transactions that occurred after September 30, 2015 up through December 1, 2015, the date the financial statements were available to be issued. Management noted no subsequent events requiring disclosure.

S. CITY OF MOUNT VERNON ECONOMIC DEVELOPMENT CORPORATION

In accordance with GASB Statement No. 14, the Financial Reporting Entity, as amended by GASB Statement No. 39, the City of Mount Vernon Economic Development Corporation ("EDC") is a discretely presented component unit on the combined financial statements. The EDC is governed by a seven-member board appointed and serving at the pleasure of the City Council. The funding for EDC occurs by the City transferring 1/4 sales tax revenues collected by the City. The purpose for which the EDC is organized and may issue or incur bonds or other obligations on behalf of the City for the promotion and development of commercial, industrial and manufacturing enterprises, promotion, development and expansion of businesses enterprises, and to promote and encourage employment and public welfare.

1. *Stewardship, Compliance, and Accountability*

a. Finance-related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures", violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations.

<u>Violation</u>	<u>Actions Taken</u>
None	n/a

b. Deficit Fund Balance of Fund Net Position of Individual Funds

Following are funds having deficit fund balances or fund net position at fiscal year-end, if any, along with remarks which address such deficits:

<u>Violation</u>	<u>Actions Taken</u>
None	n/a

2. *Financial Statement Amounts*

a. *Deposits and Investments*

Cash and cash equivalents as of September 30, 2015 consist of and are classified in the accompanying financial statements as follows:

Statement of net position - unrestricted cash	
Total - Cash and cash equivalents	<u>\$ 820,675</u>

All bank balances were covered by FDIC or by collateral held by a third-party custodian.

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

S. CITY OF MOUNT VERNON ECONOMIC DEVELOPMENT CORPORATION (continued)

b. *Receivables*

Receivables as of fiscal year-end for the EDC were \$40,749 representing sales tax owed from the City. Receivables were collected after year-end; therefore, no allowance for uncollectible accounts have been recorded.

c. *Capital Assets*

Capital asset activity for the period ended September 30, 2015 was as follows:

	Beginning Balances	Additions	Decreases	Ending Balances
Governmental Activities:				
Capital assets, not being depreciated				
Construction in process	\$ -	\$ 6,140	\$ -	\$ 6,140

At September 30, 2015, there are no construction commitments for the construction in process for the business park.

d. *Compensated Absences*

The EDC follows the City's policy to permit employees to accumulate earned but unused vacation and time worked but not paid (comp time). All vacation and comp time is accrued at close of fiscal year-end in the government-wide financial statements.

	Beginning Balance	Increase	Decrease	Ending Balance	Due Within One Year
Compensated absences	\$ 2,634	\$ -	\$ (2,634)	\$ -	\$ -

e. *Health Care Coverage*

EDC employees were covered by the City's health insurance plan. The City contributed \$493 per month per employee. Employees, at their option, authorized payroll withholding to pay contributions for dependents.

f. *Net Pension Liability*

EDC employees were provided the pension benefits through the Texas Municipal Retirement System ("TMRS"). See City's Note J for detailed disclosures.

	Beginning Balance	Increase	Decrease	Ending Balance	Due Within One Year
Net pension liability	\$ -	\$ 7,779	\$ -	\$ 7,779	\$ -

g. *Prior Period Adjustments*

To record beginning balance of net pension liability \$ (3,836)

h. *Litigation*

Management is not aware of any pending or threatened litigation involving the EDC.

**CITY OF MOUNT VERNON, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

S. CITY OF MOUNT VERNON ECONOMIC DEVELOPMENT CORPORATION (continued)

i. *Subsequent Events*

EDC has evaluated all events or transactions that occurred after September 30, 2015 up through December 1, 2015, the date the financial statements were available to be issued. During this period, management was unaware of any subsequent events requiring disclosure.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION-ECOMONIC DEVELOPMENT CORPORATION
SEPTEMBER 30, 2015**

Total fund balances - governmental funds balance sheet	\$	857,610
Amounts reported for governmental activities in the statement of net position are different because:		
Deferred inflow/outflow of resources for pension are not reported in the fund financial statements.		5,240
Net pension liability is not due and payable in the current period and, therefore, is not reported in the fund financial statements.		(7,779)
Net position of governmental activities - statement of net position	<u>\$</u>	<u>855,071</u>

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES-ECONOMIC DEVELOPMENT CORPORATION
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

Net change in fund balances - total governmental funds	\$ 100,949
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	6,140
Current year changes in pension expense do not require the use of current resources; therefore, are not reported as expenditures in governmental funds.	3,931
Change in net position of governmental activities - statement of activities	<u>\$ 111,020</u>
